

# EMERGENCY CARE FOR HEMOPHILIA A

1

## First Give Factor Concentrate

Reconstitute according to package directions: give by IV push at the rate provided in each product's prescribing information.

2

## Assign High Triage Priority

Longer waits mean more complications from bleeding. Give factor before tests and xrays. Early bleeds may not be visible.

3

## Listen to Patient and Family

They have lifelong experience and training from their hematology team.

4

## Call Hemophilia A Specialist

For specific treatment advice.
